

# Congratulations.

## You made the right choice!

Because you've chosen RISE® Siding and RISE® Trim, not only can you be sure your home will stay beautiful for decades, but you can also feel good about contributing to a more sustainable environment. RISE products are made from 90+% recycled materials that would otherwise be destined for landfills. Your choice has also helped decrease the need to cut down trees for wood-based siding; avoided mining needed to support fiber cement products; and reduced the amount of advanced chemical refining necessary to manufacture PVC siding and trim products.

# WARRANTY REGISTRATION

for RISE® Siding and RISE® Trim RISE® Composite Technologies, parent company of RISE® Building Products, is proud to offer a 30-year warranty on our substrate, and a 15-year warranty on factory prefinished products.

Please ask your contractor if the RISE products on your home were pre-finished by a third party, or painted during construction, or remodeling. If so, please refer to warranties from suppliers that provided these services.
